

WORKSHEET #13: WHAT YOUTH SAY

Zambe Example

This example is based on the Zambe "Let's Talk About It!" Program introduced in Part 1 of the I-Kit. During focus group discussions, the primary and secondary audiences were asked for the words they used for the SRH terms listed when they are with their peers and when they are with adults. Additional insights are provided in the text bubbles.

TIME TO REFLECT

Before you move on, take a moment to reflect on your experience with this Worksheet. What are the three key pieces of information you learned from filling out this Worksheet?

- 1. The terms used with peers will be helpful for peer educators to use when talking about sex and contraception among youth.*
- 2. The terms used with peers will also be helpful for providers to know, so they can understand if youth use the terms during counseling sessions.*
- 3. Terminology changes constantly, so any terms we use will be outdated soon and need to be revised to stay current.*
