WORKSHEET #3: COMMUNITY MAPPING

Zanbe Example

This example is based on the Zanbe “Let’s Talk About It!” program introduced in Part 1 of the Kit. The program managers conducted a two-day workshop and invited their staff, advisory group and selected urban adolescents from the intended audience. The workshop included a presentation of the secondary and primary research, discussing the answers to the questions in Worksheet #2, and conducting the community mapping exercise described in Worksheet #3. Comments are provided in text bubbles.

Identify your task. What information do you need to know about the community that is affecting your intended audience and the SRH problem?

We would like to see the places that put out-of-school, young women ages 15 to 19 at risk of becoming pregnant and the places that could protect them.
TIME TO REFLECT

Before you move on, take a moment to reflect on your experience with this Worksheet. What are the three key pieces of information you learned from filling out this Worksheet?

1. Older men look for young girls near the take-away chicken restaurant.

2. Young women working at the market travel home alone at night and are not safe.

3. Several churches have programs for young people.
